

Updated Coverage Gap Manufacturer Reports have been posted to the File Layouts web page. Please note the following updates:

CG Manufacturer Data Report

- Record Length has been increased from 200 bytes to 512 bytes on all records
- Record Type DETLV, Field #6 has been changed from a 19 byte field to a 5 byte field and the field name has been corrected from Service Provider ID to Labeler Code

CG Manufacturer Invoice Report

- Record Type TPAMH, Field #8, File Date has been removed and replaced with filler
- Record Type TPACT, Field #12 & 13 have been removed and replaced with filler
- Record Type TPAMT, Field #12 & 13 have been removed and replaced with filler

To maintain consistent field names throughout all reports the previous field name Manufacturer Labeler Number has been changed to Labeler Code. This name change affects both the CG Manufacturer Invoice Report and the CG Manufacturer Payment Confirmation Report.
