Risk Adjustment 101 July 22, 2013

RISK ADJUSTMENT 101

Introduction Overview Connectivity/Testing Key Data Elements RAPS Reports Resources

Purpose

Provide an introduction and overview of the risk adjustment process

Address:

- Connectivity/testing
- Key data elements for submission
- Risk Adjustment Processing System (RAPS)
- Reports
- Introduce terminology, online resources, and contacts for risk adjustment

Risk Adjustment 101 Tools

- The materials provided in this training include:
 - Participant Guide
 - Provides additional material to support the session
 - Designed as a reference for future use
 - Presentation Slides
 - Highlight the information covered during the session

Questions & Answers

Your Questions are Important! Thank you!

RISK ADJUSTMENT 101

Overview Learning Objectives

- Learn the purpose and history of risk adjustment
- Define important risk adjustment terms and acronyms

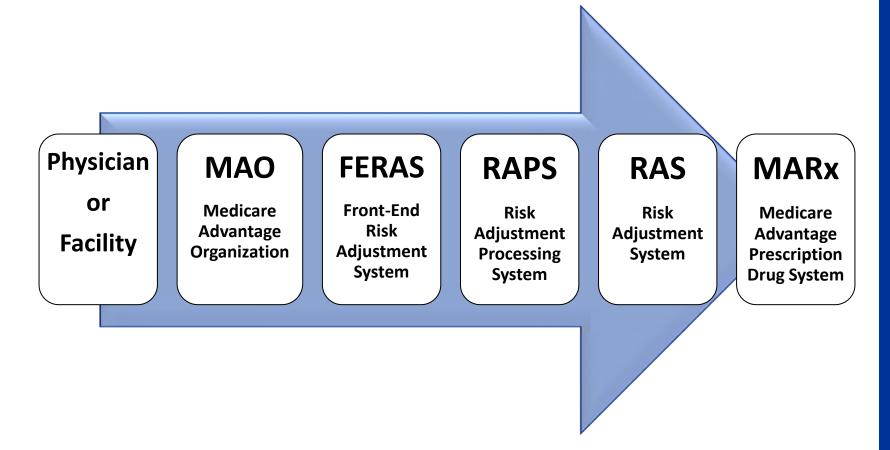

Risk Adjustment Definition

 The method used to adjust bidding and payments based on the health status and demographic characteristics of an enrollees

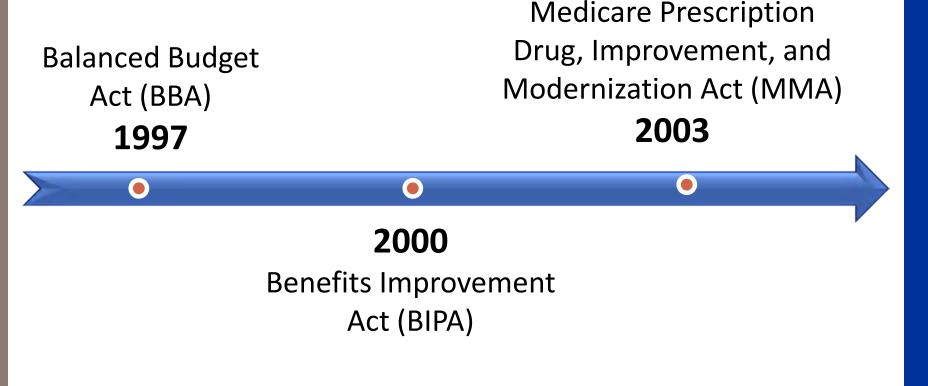

Risk Adjustment Data Flow

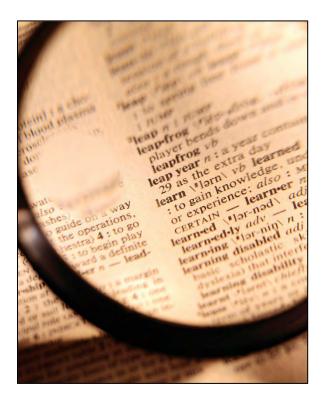

Risk Adjustment History

Risk Adjustment Terms and Acronyms

- Demographics
- FERAS
- HCC
- MARx UI
- Model Run
- RAPS
- RAS
- Risk Adjustment Model
- Status

Questions & Answers

Your Questions are Important! Thank you!

RISK ADJUSTMENT 101

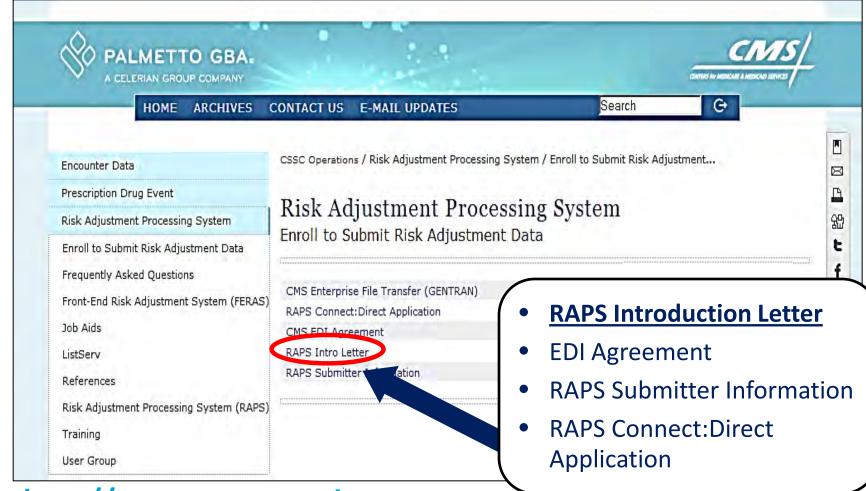

Connectivity Learning Objectives

- Access the Electronic Data Interchange (EDI) Agreement required for plans to participate in risk adjustment
- Describe connectivity options for plans to submit risk adjustment data
- Identify testing requirements for connectivity

TO: Medicare Advantage Organizations Submitting Risk Adjustment Data

RE: EDI Enrollment and Submitter Application for Risk Adjustment Data Processing

Welcome to the Customer Service and Support Center (CSSC) for Medicare Advantage (MA) Organizations submitting Risk Adjustment Data. The CSSC and the Front-End Risk Adjustment System (FERAS) look forward to working with you in all aspects of the submission of risk adjustment data.

The following information must be completed and sent to the CSSC for enrollment for the submission of data for Risk Adjustment:

- EDI Agreement for Risk Adjustment Data collection
- > > Submitter Application
- Risk Adjustment Connect:Direct Specifications (For Connect:Direct users only)

Please note the following for submitting Risk Adjustment Data:

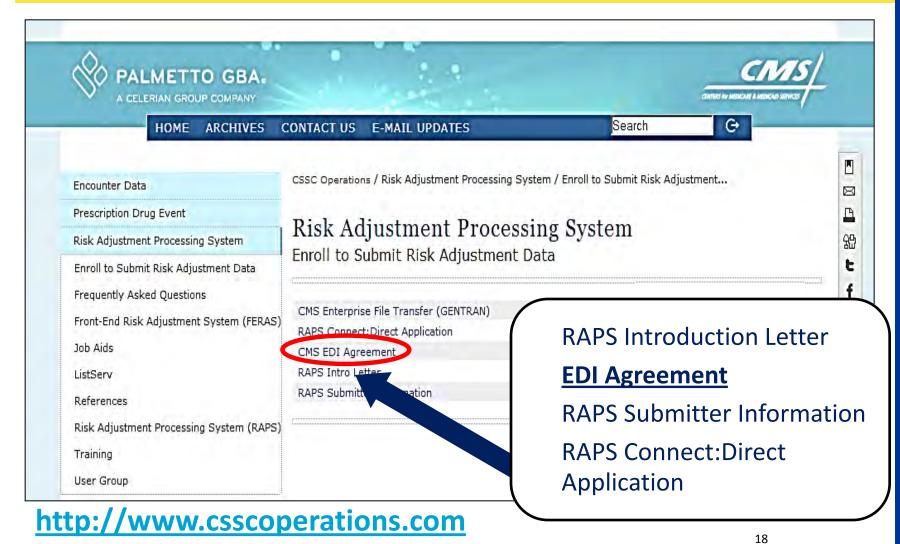

- A CMS Risk Adjustment Data EDI Agreement must be completed by each submitter and on file with CSSC, prior to submitting Risk Adjustment Data. The agreement must be signed by an authorized agent of the organization and returned to CSSC Operations at the address provided.
- Use of Third Party Submitters: If the submitter will be an entity other than an MA organization, the Submitter must complete the Submitter ID Application form and the MA organization must complete the EDI Agreement. This EDI Agreement must be completed, signed and returned for each Plan number submitting data. Regardless who submits the data, CMS holds the MA organization accountable for the content of the submission.
- A Submitter ID (SHnnnn) will be assigned to you by the CSSC and will remain effective for ongoing submission of risk adjustment data. This is the unique ID assigned to the Plan or entity that will submit data and retrieve reports. Please complete the Submitter Application return it to CSSC Operations with the completed EDI Agreement.

EDI Agreement

Medicare Advantage Organization

Electronic Data Interchange Enrollment Form

MANAGED CARE ELECTRONIC DATA INTERCHANGE (EDI) ENROLLMENT FORM

ONLY for the Collection of Risk Adjustment Data and/or

With Medicare Advantage Eligible Organizations

The eligible organization agrees to the following provisions for submitting Medicare risk adjustment data electronically to The Centers for Medicare & Medicaid Services (CMS) or to CMS's contractors

A. The Eligible Organization Agrees:

That it will be responsible for all Medicare risk adjustment data submitted to CMS by itself, its employées, or its agents.

2. That it will not disclose any information concerning a Medicare beneficiary to any other person or organization, except CMS and/or its contractors, without the express written permission of the Medicare beneficiary on hs/her parent or legal guardian, or where required for the care and treatment of a beneficiary who is unable to provide written consent, or to bill insurance primary or supplementary to Medicare, or as required by State or Federal law.

3 That it will ensure that every electronic entry can be readily associated and identified with an original source document. Each source document must reflect the following information:

- Beneficiary's name,
 - Beneficiary's health insurance claim number,
- Date(s) of service,
- Diagnosis/nature of illness
- 4. That the Secretary of Health and Human Services or his/her designee and/or the contractor has the right to audit and confirm information submitted by the eligible organization and shall have access to all original source documents and medical records related to the eligible organization's submissions, including the beneficiary's authorization and signature.
- Based on best know ledge, information, and belief, that it will submit risk adjustment data that are accurate, complete, and truthful.
- 6. That it will retain all original source documentation and medical records pertaining to any such particular Medicare risk adjustment data for a period of at least 6 years, 3 months after the risk adjustment data is received and processed.
- That it will affix the CMS-assigned unique identifier number of the eligible organization on each risk adjustment data electronically transmitted to the contractor.
- 8 That the CMS-assigned unique identifier number constitutes the eligible organization's legal electronic signature.
- 9. That it will use sufficient security procedures to ensure that all transmissions of documents are authorized and protect all beneficiary-specific data from improper access.
- 10. That it will establish and maintain procedures and controls so that information concerning Medicare beneficiaries, or any information obtained from CMS or its contractor, shall not be used by agents, officers, or employees of the billing service except as provided by the contractor (in accordance with \$1106(a) of the Act).
- 11. That it will research and correct risk adjustment data discrepancies:

Requirements for Using the FERAS

File transfers and file building are two main components of the FERAS. To access the FERAS menu options such as File Submissions or Help, users must have a browner. Netscape Narigator version 3.0 or nighter and internet Explorer version 3.0 or higher are commended and supported. Other browners may be used, however, the FERAS technicians do not currently support browsers other than Netscape Navigator and Internet Explorer.

2/22/2012

3

File transfers and file building via the FERAS can be performed by use of a browser. You can also use other FTP software to uplead your files. Before you can perform file transfers on the FERAS, you must have *one* of the following components available on your system:

Notscape Navigator version 3.0+ or Internet Explorer 3.02+. Other browsers may work, but will not be supported by the FERAS technicians at this time.

FTP Client Software Windows 95⁺ includes Microsoft FTP software. If you are using FTP software other than Microsoft, you must refer to your FTP software documentation for correct FTP procedures. See the section tilled "Using Other FTP Software."

NOTE: Although the FERAS is designed to be multi-platform, the FERAS technicians will only be equipped to support Windows 9x and Windows NT environments. In addition, the FERAS technicians will only be able to support Nukscape Nurigator version 3.0 or higher and Internet Explorer version 3.02 or higher browner.

Production Cycle

Production Cycles run at 5:00 p.m. (EST). Claims submitted via the FERAS must be completely transmitted in order to process in the 5:00 p.m. production cycle. CMS Reports will be available the following morning.

Testing Requirements

Submitter testing is required to ensure the flow of data from the Submitter to the FERAS works properly. Submittle testing a required to owner the law of addit from the Submittle testing also responses to the FEAGS works prepared testing also emerges the data submittle addit and formatic density. If you would like to send data in a test format, please contact the CSS (Operations will be yashed PZ) is notify them of your test submission. FERAS Overview

Introduction

The FERAS contains the following menu options:

- Home Returns you to the FERAS Home Page.
- Refutths you to use relative areas and the second s Upload File

2/22/2012

2

02/22/12

- Allows registered users to upload Risk Adjustment data files for processing. • DDE
- Allows registered users to create a RAPS formatted file on-line and submit it for processing. Error Codes
 Allows the user to look up descriptions for Error Codes.
- Help
 Lists the help available on-line for the FERAS.
- News & Updates Displays a list of the latest news and updates for RAPS and the FERAS.

Who to Call and Hours of Operation

If you have questions regarding the FERAS or the submission of Risk Adjustment data, you may access the Help meru option from the FERAS web site or call the CSSC Operations at (877) 544-272. The CSSC hours of operation are 8:00 AM to 74PM EST Menday through Friday. This information is also available by accessing the **Contact Information** from the FERAS web site.

FERAS Availability

The FERAS is available for use 24 hours a day 7 days a week. The CSSC Operations is unavailable on the following holidays

- New Year's Day
- Martin Luther King Day
 Memorial Day
- Independence Day
 Labor Day
- Thanksgiving Day and the day after
 Christmas Eve Day and Christmas D

Front End Risk Adjustment System User Guide

Centers for Medicare & Medicaid Services

Connecting to the FERAS

To establish an IP connection with the FERAS, you must be connected to the Medicare Data Communication Network (MDCN), which is provided by AT&T Global Network Services The MDCN is the secure entropy Indiage the Role Adjustment data processing entities IT you are not connected to the MDCN, plonge central AT&T at 1-803-905-2069

All submatters with IP network access have been authorized to connect to the FERAS.

In order to submit claims to the FERAS via the MEX2N, you must be encoded with the CISSC. If you are not equilled, plenic control the CISSC Operations at (877) 534-2772. Once encoded with the CISSC to solunit and retrieve data obstrancially, you will receive a Submitter ID and a positioned.

NOTE: This presword is case seminore. You must enter your original password exactly in it was assigned to you by the "CSNC" See the Charging Passwords section for information on how to charge your password.

Connecting to the MDCN

- Refer to your MDCN instructions for dialong into the MDCN.
- 2 Once you have dialed in to the MDCN, start your browser. At the Uniform Resource L (URL) or address field, type <u>https://32.7124/a/ferma</u> as shown in Figure 1, and press ENTER See the figure below for locating the PERAS site using Internet Explorer.

NOTE: If you type <u>Intro 32,77,242.4 liens</u> in the URL you will be reminded to use the secure version and then automatically be forwarded to the Secure Sockets Layer (SSL) version of the site.

Locating the FERAS

Enter the address of the FERAS into the browners location or address bar and press the Enter key.

Who is the main contact for connectivity information and to arrange testing?

CSSC

 When do plans submit test data?

> Within three months of their HPMS effective date

Questions & Answers

Your Questions are Important! Thank you!

RISK ADJUSTMENT 101

Introduction Overview Connectivity/Testing Key Data Elements RAPS Reports Resources

Key Data Elements Learning Objectives

- List the five (5) required data elements submitted for risk adjustment, plus the additional data element that will be required beginning with dates of service January 1, 2014
- Identify acceptable sources for data collection

Data Elements

Data Elements:

- include demographic and disease data
- are used to calculate a risk score for each beneficiary

Submitted Data Elements

Risk Adjustment requires five (5) minimum data elements :

- HIC (Health Insurance Claim) Number
- Provider Type
- "From" Date of Service
- "Through" Date of Service
- Diagnosis Code

Κ

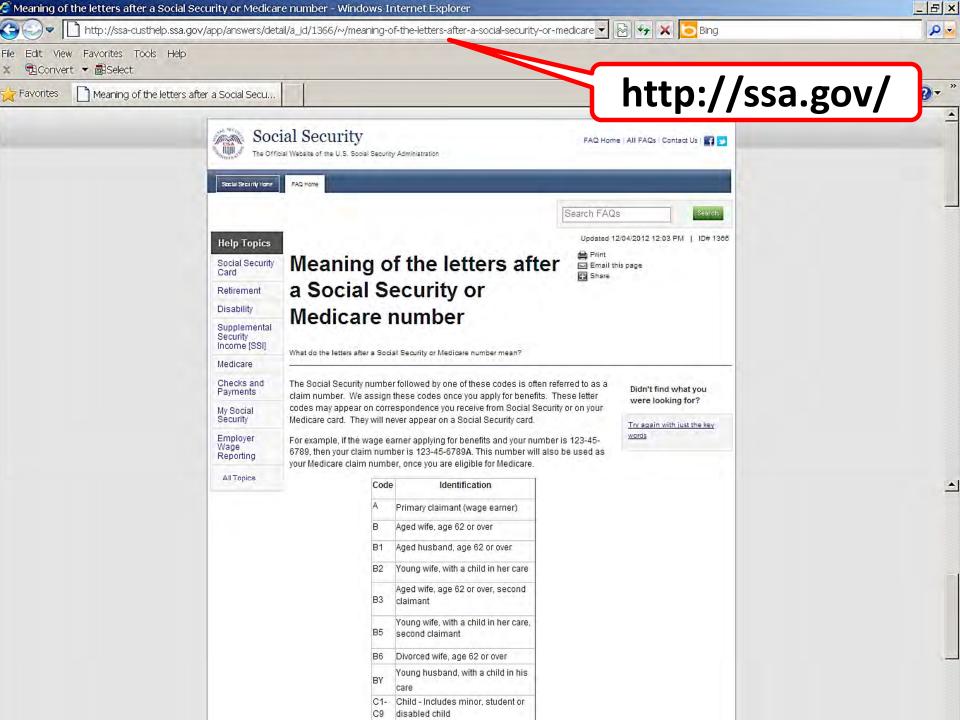

HIC Number Descriptions

ΗΙС ΤΥΡΕ	DESCRIPTIONS
CMS	 9-Digit Social Security number alpha suffix "A" beneficiary "B" spouse "C" children "D" divorced spouse, widow, widower alpha-numeric suffix - indicates number of children "C1" first child
RRB pre-1964	alpha prefix6-digit random numbers
RRB post-1964	alpha prefix9-digit Social Security number

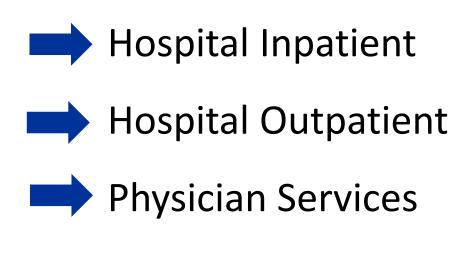

K

Ε

Provider Type

Acceptable Sources

Diagnoses submitted for risk adjustment must result from a face to face encounter with either:

- An acceptable physician specialty
- an acceptable facility

Hospital Outpatient Example

- **Q:** Does a claim from an outpatient hospital encounter have to be accompanied by a face-to-face physician visit in order to be eligible for risk adjustment?
- A: The diagnoses submitted to RAPS must result from a faceto-face encounter with an acceptable physician specialty OR from an encounter in an acceptable facility.

RAPS Format – Data Elements

- Data Elements:
 - HIC Number
 - Date of Birth (optional)
 - Provider Type
 - From and Through Dates of Service
 - Delete Indicator
 - Diagnosis Code

RAPS Submission Timeline

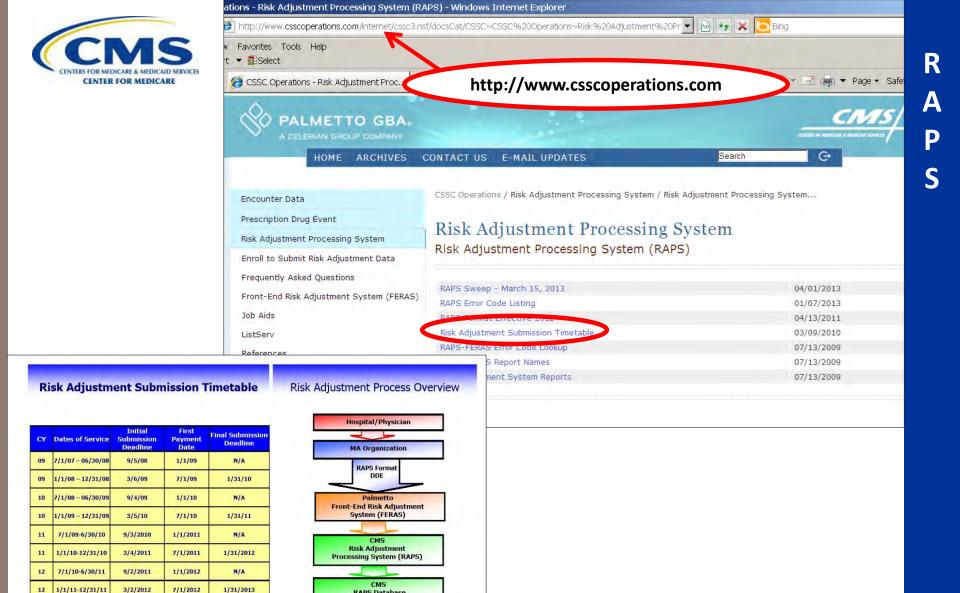

Payment Year	Model Run	Dates of Service	Deadline
2013	Initial	7/1/2011 – 6/30/2012	9/7/2012
2013	Mid-year	1/1/2012 - 12/31/2012	3/1/2013
2013	Final	1/1/2012 - 12/31/2012	1/31/2014

RAPS Submission Deadline Example

- **Q:** We received a diagnosis from a provider 12/2012, but we didn't submit it to RAPS by the 3/2013 deadline. When will the beneficiary's risk score be adjusted?
- A: Since the plan missed the March deadline, the diagnosis will not be included when the beneficiary's risk score is updated in July 2013. In this case, the payment adjustment based on that diagnosis will not be included in the plan's payment until the final reconciliation payment in August of 2014.

Test Your Knowledge

What are the three levels of data in the RAPS file layout?
File-level

File-level Batch-level Detail-level

 Which of these data levels contains the key data elements?

Key data elements are stored in the CCC (detail) record file

Test Your Knowledge

What dates of service are included in the Mid-Year Model Run for the 2013 Payment Year?

1/1/12 – 12/31/12

 Where can the Risk Adjustment Submission Timetable be found?

http://www.csscoperations.com

Questions & Answers

Your Questions are Important! Thank you!

RISK ADJUSTMENT 101

Reports Learning Objectives

- Discuss the editing logic applied by FERAS and RAPS
- Identify RAPS transaction and management reports

FERAS and RAPS Edit Logic

FERAS:

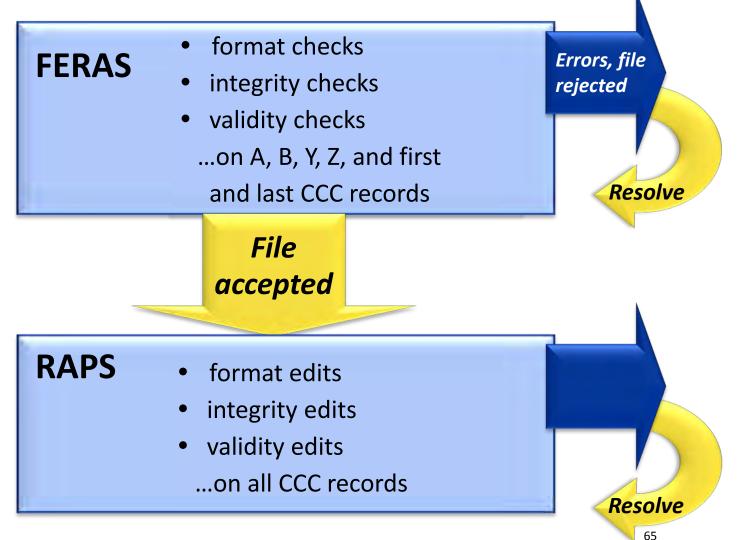

- Checks file and batch level for errors
- Checks first and last detail record to see if totals agree
- Rejects complete file if errors are found

RAPS:

Checks all detail records for format, integrity, and validity

FERAS and RAPS Edit Logic

FERAS Error Codes

FERAS ERROR CODE LEVEL	EXPLANATION
100	File-level errors on the AAA or ZZZ records
200	Batch-level errors on the BBB or YYY records
300 and 400	Detail-level errors on the CCC records

FERAS Error Example

- **Q:** Why did FERAS reject an entire file with error message 100?
- A: The plan submitted a file with "AA1" entered in the record type AAA, field 1. This field must be populated with "AAA."

RAPS Error Codes

ERROR SERIES	EXPLANATION AND CONSEQUENCES
300-399	Record-level errors
400-489	Diagnosis cluster errors
490-499	Diagnosis delete errors
500-599	Informational message

RAPS Error Code Example

Q: Why did we receive a RAPS error code 411?

A: Error code 411 refers to the date of death, and plans receive the 411 error code if the date of death is prior to the service through date.

RAPS Editing Process

- Stage 1 Field Validity and Integrity Edits
- Stage 2 Field-to-Field Edits
- Stage 3 Eligibility Edits
- Stage 4 Diagnosis Code Edits

Stage 1 – Field Validity and Integrity Edits

- Checks format and integrity on all CCC-level fields
- Entire record is rejected if data in the "HIC Error Code" or "Diagnosis Code - Filler" fields
- Dates within a diagnosis cluster must be valid

Stage 2 – Field-to-Field Edits

- "From Date" ≤ "Through Date"
- Hospital outpatient and physician provider types comply with 31-day span rule
- Reconciliation data submitted properly

Stage 3 – Eligibility Edits

- Cross-checks fields against common tables between MBD and MARx
- Checks HIC Number, date of birth, and Medicare entitlement
- Ensures HIC Number exists on common tables

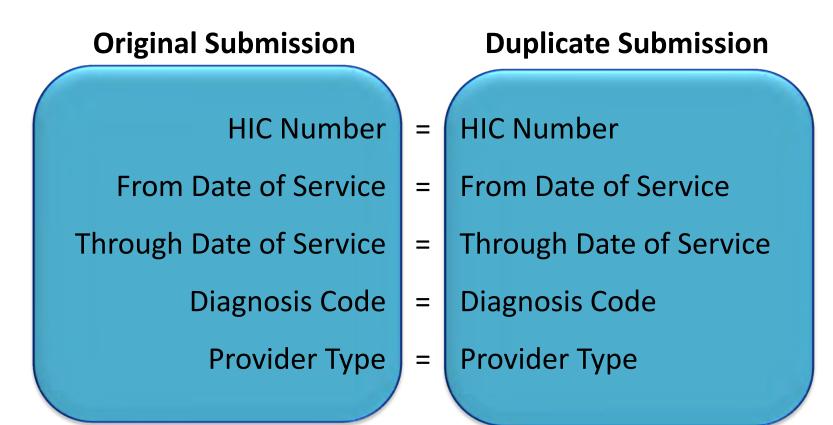

Stage 4 – Diagnosis Code Edits

- Ensures each diagnosis code is valid
- Checks each diagnosis code against service dates and sex
- Checks to see if diagnosis codes are in the risk adjustment model

Duplicate Submissions

Duplicate Diagnosis Cluster Example

- **Q:** If a beneficiary goes to a doctor on separate occasions and receives the same diagnosis each time, is that diagnosis code stored each time it is sent to RAPS? Can diagnosis clusters be duplicated over time?
- A: Each of the clusters is a unique diagnosis cluster because they have different dates of service. However, it will only be counted once in the risk score calculation.

FERAS Response Report

END	OF F	ILE													

Return File Example

- **Q:** We received 502 errors for a member, but cannot locate where the diagnosis cluster was sent on the return file. What should we do?
- A: Plans may contact the Customer Service and Support Center (CSSC) to assist in locating the files that triggered the duplicate diagnosis cluster.

Analysis of RAPS Management Reports

Plan Considerations

- Is my organization collecting enough data from physicians and providers?
- Is my organization collecting the correct data from physicians and providers?
- Are external issues affecting data collection?
- Are internal processes supporting data submissions?

Reminders

- Plans are responsible for downloading and maintaining reports.
- Plans should correct errors and resubmit as soon as possible.
- The cut-off time for data submission and completion of file transfer is 5:00 PM ET, Monday through Friday.

Test Your Knowledge

What does RAPS check that FERAS does not check?

All the detail records

What happens if FERAS finds any errors?

The entire file is rejected

Test Your Knowledge

Which RAPS report has a flat file layout?

The RAPS Return File

Why are the reports important?

Error notification Data management Process improvement
