MAO-002 Encounter Data Processing Status Reports

- The EDPS is currently processing MAO-002 reports for data received on March 19, 2013.
- If your organization has not received your MAO-002 Reports for files submitted prior to March 19, 2013, please contact CSSC Operations for assistance, after verifying receipt of EDFES Acknowledgement reports.

EDPS Known Issues

Edit 22220 – DOS Prior to Provider Effective Date

- The EDPS has identified an issue with the processing and validation of provider NPI effective date when the provider's file lists a single NPI with multiple effective dates.
- The EDPS programmers are conducting an analysis to determine the root cause of this issue.

Edit 03102 - Provider Type or Specialty Not Allowed to Bill Procedure

- This edit currently maintains a disposition status of "informational", but will be changed to "reject" after the EDPS performs a period of analysis to verify that the enhancement implemented is effective.

Proxy Data

Proxy Data Reason Codes

- MAOs and other entities may immediately begin submitting proxy data reason codes (PDRC) in lieu of the full proxy data messages in the Loop 2300 NTE02 field.
- CMS is considering options for the population of PDRC when a provider note is already in the NTE02 field.

Encounter Adjustments

- Correct/replace and void/delete encounters should only be submitted after an accepted ICN has been received on an MAO-002 Report for the original or previously adjusted encounter.
- When submitting a correct/replace encounter for an encounter that was previously corrected/replaced, MAOs and other entities must use the ICN of the previously corrected/replaced encounter and not the ICN of the original encounter.

End-to-End Certification for 2012 Dates of Service (DOS) Production Data

- CMS has performed outreach to MAOs and other entities that have not received end-to-end certification for submission of production data for 2012 DOS.
- MAOs and other entities that are experiencing issues or have concerns regarding achieving end-to-end certification are asked to submit questions and concerns to csscoperations@palmettogba.com.

Reminders

March 2013	All MAOs and other entities not certified are considered non-compliant
March 28, 2013	EDS Companion Guides
April 4, 2013	EDS User Group Session
May, 2013	Getting Started Webinar Series delayed due scheduling conflicts

Questions?
Questions related to EDS reports and edits should be submitted directly to CSSC Operations at csscoperations@palmettogba.com or (877) 534-2772.
Questions related to operational guidance for EDS submission should be submitted to eds@ardx.net.
