

### Encounter Data Processing System General Updates

- Due to feedback provided by MAOs and other entities, the file naming convention for MAO reports are being generated to indicate whether the file is in 'Test' or 'Production', and Institutional, Professional, or DME submissions. MAOs can expect to see these updates in file names over the upcoming weeks.
- DME Encounter Data test cases have been released and can be found on the CSSC website at [www.csscoperations.com](http://www.csscoperations.com). Testing will begin on Friday, June 15, 2012 for DME end-to-end certification.
- **Reminder!** When submitting default NPIs, MAOs and other entities should include a true and valid Employer Identification Number (EIN) if it is available. Do not use the default EIN unless it is not available.
