

Industry Update

October 27, 2011

Agenda

- Introduction
- Session Guidelines
- EDFES Certification
- EDFES Testing Results
- Updates
 - File Submission
 - CAS Segment
 - Paper Claims Status
 - PC Ace Pro32
 - Atypical Providers
 - Duplicate Logic
- Tips for using 5010 Institutional and Professional Edits Spreadsheet
- Preview of EDPS Transactional Reports
- Outreach Activities
- Question and Answer Session

Introduction

- The purpose of this session is to provide Medicare Advantage Organizations (MAOs) and other entities with information on policy and operational guidance in order to promote capabilities and preparations for continued testing and implementation of the Encounter Data System (EDS) by January 2012.

MAOs and Other Entities

- CMS requires the following types of organizations to submit encounter data:
 - Medicare Advantage (MA) Plans
 - Medicare Advantage-Prescription Drug (MA-PD) Plans
 - Health Maintenance Organizations (HMOs)
 - Special Needs Plans (SNPs)
 - Local Preferred Provider Organizations (PPOs)
 - Regional PPOs
 - Employer Group Health Plans
 - Programs of All-Inclusive Care for the Elderly (PACE) Plans
 - Cost Plans (1876 Cost HMOs/CMPs and 1833 HCPPs)
 - Medical Savings Account (MSA)
 - Private Fee-for-Service Plans (PFFS)
 - Religious Fraternal Benefit Plans (RFBs)
 - Provider Sponsored Organizations (PSO)

Session Guidelines

- This is a two (2) hour Encounter Data Industry Update for MAOs and other entities.
- Time has been allotted at the end of the call for questions and answers.

EDFES Certification Compliance

TASK	ESTIMATED START DATE	ESTIMATED END DATE
EDFES		
MAOs and other entities submit Front-End Test Data	6-Sept-11	3-Jan-12
Encounter Data Processing System Test Case Preparation, Reports Layouts, and Education	03-Nov-11	23-Nov-11
EDFES Certification Notification Letter		01-Dec-11
EDFES Technical Compliance Alert		04-Jan-12

Bringing Simplicity
to Complexity

Front-End Testing

- CEM edits have caused MAOs and other entities' files to reject and the Encounter Data Front-End System (EDFES) has corrected the problem.
- MAOs and other entities can still submit test files to the front-end.
- CMS has extended the EDFES and Encounter Data Processing System (EDPS) testing dates to the EDS implementation date of January 3, 2012.

Measure of Success in EDFES Testing

- An MAO or other entity has completed testing if the file passes CEM with no errors.
- If a file is received with errors, the errors must be corrected before the plan is considered as having passed the testing process.

Sample Successful Front-End Test Notification

Based on the following results from the Encounter Data Front End System (EDFES), we are happy to inform you that you have passed Encounter Data Front End Testing. CMS will notify you when test case scenarios are available in order to advance to the next phase of the EDS Testing process.

Submitter ID: ENH9999

Submitter Name: Your Health Plan

837I Volume Test - 100%

Volume Test - File ID: YourHealthPlan Cert101

Date: 11/11/2011

837P Volume Test - 100%

Volume Test - File ID: YourHealthPlan Cert101

Date: 11/13/2011

In the event you have any questions with this notification, please contact CSSC Operations at 1-877-534-2772 or csscoperations@palmettogba.com.

Bringing Simplicity
to Complexity

Testing Results

- 242 MAOs and other entities are currently enrolled to submit Encounter Data
- 145 out of 242 submitters have submitted test files
- 5 out of 145 submitters professional and institutional files successfully processed through the translator and CEM
- Submitters will receive a 999P if at least 1 ST/SE segment has an error

Updates

Program Updates

- The following program updates will be discussed regarding EDS:
 - File Size Submission
 - CAS Segment
 - Paper Claims Status
 - PC Ace Pro32
 - Defaults for Atypical Providers
 - Duplicate Logic

File Submission

- NDM and FTP submitters can send up to 85,000 encounters per file. This file should contain no more than 5,000 encounters per ST-SE and no more than 17 ST-SE segments per file.
- Gentran users cannot exceed 5,000 encounters per file.

File Submission *(cont.)*

- It is recommended that FTP submitters' scripts should not upload more than one (1) file per five (5) minute interval to allow maximum performance. Files that are zipped should contain one (1) file per transmission.
- MAOs and other entities should refrain from submitting multiple files within the same transmission.

File Submission *(cont.)*

- Every line (record) in a file must be uploaded as 80 bytes/characters long. NDM/Connect:Direct and Gentran submitters must use this approach.

EDS Repurposing of Adjustment Values

Encounter Data

Industry Update

LOOP	DATA ELEMENT	VALUE	X12 5010 STANDARD	EDS USAGE
2320	CAS01	CR	Correction and Reversals	Correction
2320	CAS01	OA	Other Adjustment	Deletion

Thursday, October 27, 2011

1:00 P.M. – 3:00 P.M., ET

Deletion

- Loop 2320, segment CAS, data element CAS01 = OA (Deletion) allows for the deletion of previously submitted encounter data.
- A claim adjustment group code value, “OA,” is submitted to delete an entire claim.

Correction

- Loop 2320, segment CAS, data element CAS01 = CR (Correction) overwrites the submitted encounter and replaces previously submitted data.
- The claim adjustment value, “CR,” within the CAS segment can only be used within 2300 level loop.
- Line level corrections (at the 2400 level loop) cannot be processed for encounter data purposes.

Repurposing of CAS Segment

- In addition to the repurposing of CAS segments, two edits that would have impacted the balancing of the claims will be deactivated.
- Medicare Fee-For-Service (FFS) deactivated the following edits for Professional and Institutional claims, which will also be deactivated for encounter data:
 - **222.157.2300.CLM02.030 – Professional**
 - **CSC 693:** “Amount must be greater than or equal to zero”
 - **CSC 178:** “Submitted Charges”
 - **X223.143.2300.CLM02.030 – Institutional**
 - **X222.157.2300.CLM02.080 – Professional**
 - **CSC 400:** “Claim is out of Balance”
 - **CSC 672:** “Payer’s payment information is out of balance”

Submission of Paper Claims Data

- CMS is currently analyzing the minimum data elements that will be required for the submission of paper claims in an electronic format.
- Further operational guidance will be announced to the industry by November 19, 2011.

PC Ace Pro32

- PC Ace Pro32 software is a Windows –based software product used for the creation of health care claim files in the HIPAA compliant format for electronic transmission to Medicare Part A and Part B.
- The software accepts manually entered claim data required to convert paper claims into 5010 Electronic Media claim files for processing.
- The PC Ace Pro32 software package is currently being modified for Encounter Data. Additional information will be provided at a later date on when the software will be available.

PC Ace Pro32 – Features

- PC Ace Pro32 allows you to enter Patients, Payers, Providers, Submitters, Facilities, and Physicians into reference files.
- As a claim is being entered these Entities can be selected using a single piece of information, and all necessary information about that Entity will be pulled into the claim.
- There are drop down list boxes for many of the fields. This allows you to select the data more quickly and accurately.
- These features reduce the amount of information that has to be keyed for each claim.

PC Ace Pro32 – Limitations

- PC Ace Pro32 will only create files for Electronic Media Claims (EMC) for Medicare Parts A and B.
- If all major data element are not present complete claims cannot be created and transmitted.
- PC Ace Pro32 performs limited editing to ensure all necessary information has been provided so a well formatted 5010 EMC file can be created. These edits do not check for complete accuracy of content or data relationship. These edits are only preliminary in nature.

Atypical Provider Types

- MAOs and other entities will use default values as a placeholder for those atypical provider types without an NPI or diagnosis codes.
- Diagnoses captured from atypical providers will be stored but not used for risk adjustment calculation.

Atypical Provider Types *(cont.)*

- The following are some examples of types of atypical providers:

Adult Companion
Adult foster care
Driver
Funeral Director
Home delivered meals
Non-emergency transportation providers
Personal care attendants
Supportive living provider

Atypical Provider Types *(cont.)*

- To submit encounter data from atypical providers, MAOs and other entities must use:
 - Default NPI
 - Payer ID 80881 (Institutional) - 1999999976
 - Payer ID 80882 (Professional) - 1999999984
 - Payer ID 80887 (DME) – 1999999992
 - Default Diagnosis Codes = 78099 (Other General Symptoms)

Duplicate Logic

- The following duplicate logic has been determined for the EDPS:

ENCOUNTER DATA DUPLICATE LOGIC	
Institutional (837-I)	Professional (837-P)
Beneficiary Demographic: <ul style="list-style-type: none"> HICN Name 	Beneficiary Demographic: <ul style="list-style-type: none"> HICN Name
Date of Service (DOS)	Date of Service (DOS)
Type of Bill (TOB)	Place of Service (POS)
	Type of Service
Procedure Code(s)	Procedure Code(s) (and 4 modifiers)
Billing Provider NPI	Rendering Provider NPI
Paid Amount	Paid Amount

- Duplicate checks occur in the EDFES based on the HASH totals.

Tips for Using 5010 Institutional and Professional Edits Spreadsheet

CEM Edits Spreadsheet

- There are several CEM Edits Spreadsheet releases available at http://www.cms.gov/MFFS5010D0/20_TechnicalDocumentation.asp.
- MAOs and other entities should ensure use of the correct version when programming their systems.
- CEM Edits Spreadsheet has a unique naming convention. This is described in the “Read Me” file.

Naming Convention

- The version for the 837-P and 837-I edit spreadsheet is contained in cell A1. The version is a 10 byte identifier broken down as follows:
 - Positions 1-2 indicates the line of business
 - EA - Part A
 - EB – Part B
 - Positions 3-6 indicates the year (e.g., 2011)
 - Position 7 indicates the release quarter month
 - 1 – January release
 - 2 – April release
 - 3 – July release
 - 4 – October release
 - Positions 8-10 indicates spreadsheet version iteration number (e.g., V01 (first iteration), V03 (third iteration), etc.)

Naming Convention *(cont.)*

The screenshot shows a Windows Explorer window titled '837landPeditSpreadsheets[1].zip'. The address bar indicates the file is located in 'C:\Documents and Settings\tiffanyv\Local Settings\Temporary Internet Files\Content.IE5\CQB3A6KP\837landPeditSpreadsheets[1].zip'. The main pane displays a list of files with columns for Name, Type, Packe..., Has a..., Size, Ratio, and Date.

Reports Development

- Analysis of Medicare FFS, Risk Adjustment Processing System (RAPS), and Medicaid reports has led to the development of EDPS Transactional Reports that MAOs and other entities can expect to receive from the EDPS.
- The following seven (7) reports are a preliminary view of customized reports for EDPS.
- Reports will be provided in flat file and report layout formats.

EDPS Transactional Reports

REPORT NUMBER	REPORT NAME	REPORT DESCRIPTION	FREQUENCY
MAO-001	Encounter Data Duplicates Report	Identifies and displays ICNs based on duplicate key data fields on the encounters level	Daily
MAO-002	Encounter Data Processing Status Report	Provides the status of submissions during the adjudication process at various levels of validation	Daily
MAO-003	Encounter Data Pricing Status Report	Identifies the status of submissions during pricing	Daily
MAO-004	Encounter Data Risk Adjustment Filter Report	Identifies diagnoses that are accepted and are those identified for risk score calculation	Weekly

EDPS Transactional Reports *(cont.)*

REPORT NUMBER	REPORT NAME	REPORT DESCRIPTION	FREQUENCY
MAO-005	Encounters Summary Report	Identifies the number of encounters accepted and rejected for encounter data purposes per transaction	Daily
MAO-006	Edit Disposition Summary Report	Identifies the error codes and a count of the errors associated with an encounter	Daily
MAO-007	Encounter Detail Report	Displays the encounter level information submitted and details for each encounter associated with the reject	Daily

Encounter Data Industry Outreach

Encounter Data

Industry
Update

Thursday, October 27, 2011

1:00 P.M. – 3:00 P.M., ET

HEALTHCARE MANAGEMENT
CONSULTING COMPANY

Reddix
ASSOCIATES
www.reddix.net

Bringing Simplicity
to Complexity

Register for Outreach

- To register for Encounter Data Industry Outreach, please visit www.tarsc.info.

User Group Calls

- The Encounter Data User Group Calls will be used to ensure weekly contact with MAOs and other entities collecting and submitting encounter data.
 - Teleconference Calls
 - First User Group will be held November 3, 2011
 - Bi-weekly, Thursday's, 3:00 P.M. – 4:00 P.M., EST
 - Up to 500 participants
- For more information on the schedule, refer to www.tarsc.info/site.

User Group Calls *(cont.)*

- During each User Group, the EDS Project Team will respond to questions submitted to eds@ardx.net.
 - Questions must be submitted 10 days prior to the User Group Call in order to be considered for the next call.
 - Email should contain the subject: “EDS User Group Question”
 - Materials from each User Group call will be posted following each call.
- Additional program updates will also be provided.

Quarterly Newsletters

- The Encounter Data Newsletter, Volume 2 will be published quarterly beginning in November 2011.
- MAOs and other entities can expect to receive information in the newsletters on:
 - Current policy and operational guidance,
 - Resources,
 - Dates to remember, and
 - Other helpful hints.
